For those who love the outdoors, look no further! Sitting on just under an acre of high-producing land, this well-maintained 4 bedroom home overlooks the Coldstream Valley and offers a bright cheery feel with lots of natural light! The main floor includes a good sized kitchen and eating area with a view of the back yard. The living room and dining room are open and spacious with a cozy ambiance enhanced by the gas fireplace. The large master bedroom has garden door that open onto the back deck and an updated ensuite. Rounding out the main floor is a second bedroom and full bathroom. Downstairs there is a summer kitchen, canning room/storage, sizable family room, 2 more bedrooms and a full bathroom. This home wouldnt be complete without the garage, it has lots of room for parking plus a workshop area and mezzanine for storage. Likely the biggest appeal of this property is the beautiful yard that can be enjoyed from the massive back deck or by immersing yourself in the gardens, the enticing areas around the fruit trees or enjoying valley views from the treehouse! A bonus for the gardening type is the well, so you dont need to draw too much municipal water for watering purposes.
